DEVOPS FOR BUSINESS AGILITY

Rapyder brings DevOps culture, agile delivery and innovation to business with holistic DevOps strategy & solutions.

Rapyder Cloud Solutions Pvt. LTD.
Bangalore | Delhi | Mumbai

Software development providers struggle to deliver at the rate business leaders want. As the speed of application development is increasing, businesses must deliver software ultra-fast with high quality. To achieve that, businesses need an express way with highest degree of automation and standardization to repeat the entire solutions life cycle over and over again at supersonic speed; DevOps is that expressway.

DevOps is a culture that promotes better working relationship within the company and improves IT service delivery agility. DevOps is an approach based on agile and lean principles in which business ow ers,development, operations and quality engineering team collaborate to deliver software in a continuous stable manner.

CHALLENGES IN SOFTWARE DELIVERY

- Longer Release Cycles
- High Cost & Time to Deliver
- Organizational Silos
- Unstable Software
- Production Down Time
- Low Productivity

RAPYDER'S APPROACH TO 7C'S OF DEVOPS

Rapyder DevOps approach starts with the agile mantra "People over Process over Tools".

- **PEOPLE:** Communication & Collaboration
- **PROCESS:** Source Control Check-ins, Code Review, Code Quality, CI, CD, Change Control, RCAs
- **TOOLS:** For Continuous Delivery and Continuous Monitoring

We ensure 100% delivery to our clients through Continuous Planning, Continuous Development, Continuous Integration, Continuous Deployments, Continuous Testing, Continuous Monitoring and Continuous Feedback.
