

AMAZON WORKSPACE

ACCESS YOUR DESKTOP ANYWHERE, ANYTIME USING ANY SUPPORTED DEVICE

Amazon Workspace is a fully managed, Secure Desktop-as-a-service (DaaS) solution which runs in the Amazon Cloud. Provide your user and partners with a high-secure, virtual Microsoft Windows desktop that grants them access to the documents, application and resources they need, anywhere, anytime, from any supported device.

With no upfront cost, you pay either monthly or hourly basis just for Amazon Workspace you launch. This helps you save money when compared traditional desktops and on-premise Virtual Desktop Infrastructure (VDI) solutions.

OUR SERVICE INCLUDE
